

RPET

What is it?

PET, or polyethylene terephthalate, is a substance used for plastic bottles and many single use packages like shampoo or fruit containers. RPET, commonly referred to as recycled PET, is a material made after breaking down PET plastic into pellets that can be reused in a multitude of products, from bags to apparel.

Why RPET?

RPET is a cost efficient resource with a small carbon footprint and does not require a lot of energy to be produced. It reduces the amount of new PET that needs to be created which also lessens resource extraction, and it creates a market for plastics to keep them in a cycle and away from landfills. expenditure than producing PET.

RPET or PET?

While the overlap in PET and RPET content is large, there is an environmental benefit to choosing RPET products over their conventional counterparts. Both RPET and PET materials can be recycled over and over again without breaking down over time; however, RPET production takes about

60% less energy consumption.
Additionally, RPET takes **40%** less

water expenditure than producing virgin PET. RPET production also has a smaller carbon footprint, and it's reusable products, like our Recycled RPET Fanny Pack, allow for less waste to be tossed out in the first place. These products also reduce CO2 emissions due to their easy and efficient nature in transportation.

From Used Plastic to a Promotional Product

Once a plastic item is recycled, it goes through an extensive conversion process of cleaning, sorting and chipping. The plastic is then broken down into flakes that can be transferred into other materials for production. This complicated process can make for some difficulty in transparency of tracking manufacturing information.

At Eco Promotional Products, we support brands that provide third party verification and 100% authenticity of their recycling process, seen in our Repeve-made Custom Branded Sherpani Sling Bag. Repeve manufacturers provide tracking in every step of the process, from the bottle breakdown to product creation to ensure that the process is as environmentally friendly as possible.

- Double Donation

Recycled Quarter Zip Stretch Fleece Pullover

Our fleece pullover is made from the same fabric worn by Winter Olympians-- it is 93% recycled polyester, 7% percent Spandex. Each fleece is Prop. 65 Compliant, Manufactured in WRAP & BWC Certified Facility, and made from 25 recycled plastic bottles. This product is a part of our partnership with 1% For The Planet. 1% of every retail sale is donated to support the work of environmental non-profits organizations.

as low as
\$45.50

Organic Recycled Trucker Cap

as low as
\$15.15

This eco friendly trucker cap is made from 70% certified organic cotton and 30% recycled polyester. It has a 6-panel, structured, curved bill styling and features an adjustable plastic closure.

Custom Lanyards | 3/4" |

as low as
\$2.59

These personalized lanyards are 3/4" and made from recycled dye sublimated fabric and include an attachment. Made in the USA from 100% post-consumer PET materials.

Recycled Shopping Bags | 12x8x13

as low as
\$2.89

Unique graphics make these bags stand out in a crowd with preprinted eco information standard on every bag. This tote is matte laminated to provide maximum durability with 130 grams per square meter (GSM) made from 100% recycled PET.

Recycled PET Umbrella | Auto Open/Close

as low as
\$15.95

This umbrella is made from 100% recycled material with a natural wooden handle; it opens and closes with the touch of a button. Through a partnership with 1% For The Planet, one percent of sales of this umbrella will be donated to nonprofits dedicated to protecting the planet.

B2P Recycled Bottle to Pen | Clip Imprint

\$1.10

The B2P Custom Pen is the world's first pen made from recycled bottles. These ballpoint pens are made from 100% recycled content. They write smoothly with smear-proof ink, have a comfortable grip, and are 100% refillable, making for a long-lasting eco-friendly promo!

Recycled Water Bottle | Drink Thru Lid | 20 oz |

as low as
\$2.35

This 20 oz recycled water bottle is made in the USA, molded with 100% post consumer RPET. It is BPA-free and food compliant. Recipients will love this long lasting, eco friendly, recycled promo.
