# CROSS WORD CHALLENGE

## THE IMPORTANCE OF A SHARP MIND

There are countless sayings, adages and aphorisms involving the human brain. The mind is a terrible thing to waste, being the most prominent and poignant, speaks directly to the importance of keeping the brain active. But how, exactly, does one keep the brain active?

It's not as if there's a little barbell set out there for the brain. Your brain isn't doing sit-ups and squats. So, how do you train the brain? Knowledge is the answer, of course, but let's be honest: Reading books and doing math problems can be very tedious and boring. Most of us cannot wait until we're out of school; we're in no hurry to jump right back in. That's why brain games are always a great idea – those little fun-to-do mental exercises that keep your brain sharp and your senses alert.

Brain games can actually wake up parts of the brain that are typically dormant in day-to-day life.

The background of the page is white with a decorative pattern of grey gears and dots. The gears are of various sizes and are scattered across the page, with some larger gears in the top right and bottom right corners. The dots are small and scattered throughout the page.

## THE BENEFITS OF SHARP MIND GAMES

One of the biggest things you learn by solving puzzles of all kinds is the ability to think outside of the box for a solution. This type of thinking literally hardwires the brain to solve tougher problems by examining more than what's typically confined in the narrow scope of problem-solving.

Being mentally sharp and actually exercising the brain helps in many areas. For starters, it helps neurons to fire faster, more frequently, and thus help you make quick work of everyday problems.

Staying sharp and training the brain also increases your overall intelligence. Ever wonder why those super-smart people are so brilliant? What's different about their brains from an average person's brain? It's the ability to absorb and understand knowledge. A trained brain retains knowledge and builds pathways for the recollection of answers.

You may never be trapped on the 85th floor with only 20 feet of rope, a tennis shoe and a pocket knife, but if you are, the sharp mind can craft an out-of-the-box way out of that situation, whereas the dull mind has very limited options.

## HOW TO PLAY

Crossword puzzles are a great way to foster creative thinking, strengthen verbal skills, ward off dementia, enhance your memory, and improve your spelling.

To do a crossword puzzle you will need to answer the questions with a word that fits into the spaces given and that uses the appropriate letters from other answers. Questions in the “Across” section will be written in horizontally and ones in the “Down” section will be written in vertically.

### Helpful Tips:

- First fill in the answers you are the most sure about. This will help give you clues about the rest.
- Use a pencil. That way you won’t be afraid to take a guess and it is easier to erase later if you are wrong.
- Be on the lookout for wordplays, puns, or words with more than one meaning. For example, someone who uses a bat could be a baseball player or a vampire.
- If you get stuck, try putting the puzzle down for a while and coming back later. Taking a breather can help loosen up your mental block.
